HOFFMAN'S FARM SEEDS

A. H. HOFFMAN INC

LANDISVILLE, LANCASTER COUNTY, PA.

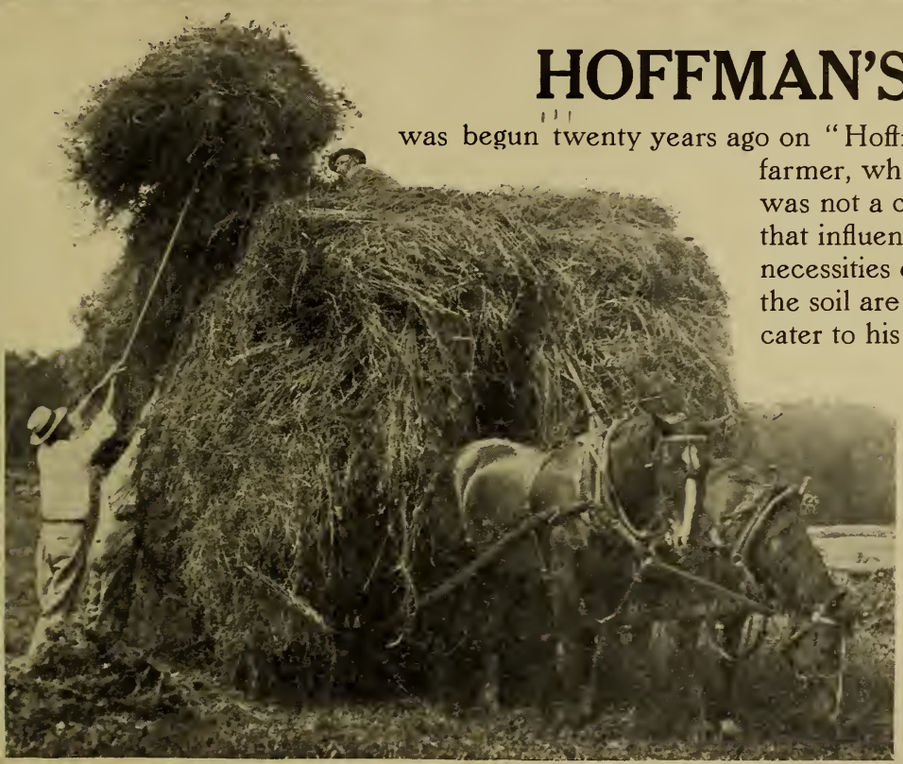
1c. Paid
Landisville, Pa.
Permit No. 1

This **"PRICE LIST,"** issued repeatedly during the active seed buying season, is part of the **Hoffman Seed Service.** The object is to quote closely on farm seeds described in our catalog in accordance with general market conditions on day the list is mailed. No other seed house, selling direct to the farmer, gives similar service.

Prices printed into seed catalogs are invariably out of date. When you order from them you either pay too much or remit too little. If too much, you are out of pocket. If too little, further remittances are requested, with vexatious delays.

These lists will be most valuable to those who can decide quickly. The tardy buyer will miss the most attractive offers.

Mr. [illegible],
Office of [illegible] Distribution,
Dept. of Agriculture,
Washington, D.C.



HOFFMAN'S SEED SERVICE

was begun twenty years ago on "Hoffman's Homestead Farm" by its owner, a practical farmer, who is still in the service of A. H. Hoffman, Inc. It was not a craving for seed novelties, but an aversion for them that influenced the start of "Hoffman's Seed Service." The necessities of the real farmer who must make his living tilling the soil are even this day unappreciated by most of those who cater to his wants in the seed line.

The success and wide popularity of "Hoffman's Farm Seed" is due primarily to the fact that same are selected with an understanding of the farmer's needs, that only a farmer knows. "Hoffman's Seed Service" provides seed—clean and strong—varieties that yield well—kinds that suit the soil and climate of the purchaser.

Prices of "Hoffman's Farm Seeds" are at a level (consult this list) that insures a profit to those who buy and sow them.

HOFFMAN'S BRANDS

"SAFE"

Whether applied to Clover or Timothy means just what the name implies. It is "Safe" to sow. Free of dangerous weed seeds. Satisfactory germination. "Safe" is equal to best seed sold by average country dealers. It meets competition in price. "Safe" is the cheapest grade of dependable quality that any one should sow.

"EXTRA"

Is our best known and most popular brand. "Extra" stands for high quality. "Extra" means seed that is right as to color, high in purity, high and strong in germination. "Extra" Clovers are selected by careful buyers in the greatest producing sections of the country. It is recleaned over our modern machinery to a standard of excellence that is familiar to thousands of careful farmers who have used it with pleasing results for years.

"NORTH-WEST"

Stands for more than high purity and germination. "North-West" seed is produced in the extreme North, along the Canadian Border States from Minnesota to the Pacific, including the Black Hill and North Rocky Mountain districts. "North-West" Clovers and Alfalfa are the product of only strong plants. Only deep-rooted, vigorous plants can survive the severe winters and live to produce seed in the short Summers of the Northland. "North-West" seed from these strong plants is fortified with the vigor and characteristics of its parents and when taken to other sections to be planted carries with it power to thrive under adverse conditions. "North-West" Seed is without a competitor. It is early, sure, hardy, vigorous, prolific.

HOFFMAN'S SEED WHEAT

Hoffman's Winter Seed Wheat is grown especially for seed purposes by careful farmers in the famous valleys of Lancaster County, Pennsylvania. Hardy and vigorous varieties that stand up, resist disease and yield abundantly of both grain and straw are produced. Cleaning and grading are accomplished by modern machinery. "Hoffman's Seed Wheat" stands for every desirable quality in wheat for seed purposes.
